

**EVERYTHING KKALOAI DOES, ON ONE PAGE**

A complete **AI nutrition platform** — built for transparency, control, and results.

KkaloAI is structured as a service catalog: 18 features grouped into 6 modules, with clear pricing tiers — Free, 7-Day Trial, and Premium. No hidden upsells, no aggressive paywalls, no medical advice. Just the tools to track, adjust, and act.

UNIQUE SELLING PROPOSITION

The only AI calorie tracker that **asks before it commits — with health modes the incumbents don't ship.**

01**Confirm & Adjust**

A 0.5×–2.5× slider lets users fine-tune AI portion estimates before logging. No silent guesses.

02**Specialty Health Modes**

Dedicated tracking for GLP-1, PCOS, bulking, and weight management. Zero competitors offer all four.

03**Transparent Pricing**

7-day free trial without payment info. One simple Premium tier. No surprise charges.

04**Native Health Connect**

Two-way sync with Android Health Connect — first-class integration, not an afterthought export.

Core Tracking

The everyday food log — fast, accurate, and free forever.

SIGNATURE

SIGNATURE FEATURE

AI Photo Recognition + Confirm & Adjust

Snap a photo. AI identifies the dish and estimates portions. Then a 0.5×–2.5× slider lets you fine-tune before confirming — so the log reflects reality, not a guess.

- ◆ Multi-item meal recognition
- ◆ Portion slider (0.5× – 2.5×)
- ◆ Manual override per item
- ◆ Re-scan if unsure

Free Trial → Premium

Day 1 · iOS + Android

ALWAYS FREE

Barcode Scanner

Scan packaged foods against a 3M+ product database. Instant macros and serving info, with offline cache for repeated items.

- ◆ 3M+ products (Open Food Facts + USDA)
- ◆ Offline cache
- ◆ Custom serving sizes
- ◆ Add missing products in 10 sec

Free forever

Day 1 · iOS + Android

ALWAYS FREE

Favorite Meals

Save any meal as a favorite with one tap. Re-log it the next day in two seconds. Perfect for breakfast routines, meal-prep regulars, and post-workout shakes.

- ◆ Unlimited favorites
- ◆ Folder grouping (breakfast, snack...)
- ◆ Quick-log from widget
- ◆ Share favorites with friends

Free forever

Day 1 · iOS + Android

MODULE 02

| AI Power Features

Where AI moves from "estimate" to "insight."

VOICE-FIRST LOGGING

Voice Log

"I had two slices of sourdough toast and a cappuccino." AI parses the sentence, estimates macros, and pushes to your log — confirmable with the same slider.

- ◆ Natural language parsing
- ◆ Multi-item per phrase
- ◆ Works in EN, ES, FR, DE

[Free Trial](#) → [Premium](#)

Q2 2026

WEEKLY INSIGHT ENGINE

Weekly AI Report

Every Sunday: a personalized summary of patterns the AI noticed — protein gaps, sugar spikes, hydration trends — with one specific suggestion to test next week.

- ◆ Macro & micronutrient trend lines
- ◆ Pattern detection (e.g. weekend overconsumption)
- ◆ One actionable nudge per report
- ◆ Shareable PDF

[Premium](#)

Day 1 · Premium only

SMART SUGGESTIONS

Meal Recommendations

Based on what you've eaten today and your daily targets, KkaloAI suggests 3 meals to close gaps — filtered by your specialty mode (GLP-1-friendly, PCOS-aligned, etc.).

- ◆ Goal-aware suggestions
- ◆ Mode-aware filtering
- ◆ Save as favorite

Premium

Q2 2026

MODULE 03

| Specialty Health Modes

Four dedicated tracking environments. Switch between them anytime.

INDUSTRY-FIRST

GLP-1 Support Mode

Designed for users on Ozempic, Wegovy, Mounjaro, or Zepbound. Tracks injection day, side-effect notes, hydration, protein floor, and gentle re-feed reminders aligned with the medication cycle.

- ♦ Injection day tracker
- ♦ Side-effect log (nausea, fatigue...)
- ♦ Protein-floor enforcement (preserve lean mass)
- ♦ Hydration & electrolyte reminders
- ♦ Mode-aware meal suggestions

Premium

Day 1 · Premium only

UNDERSERVED NICHE

PCOS & Hormonal Balance

Cycle-phase aware tracking with focus on insulin-resistance friendly meals. Carb-quality scoring, glycemic-index hints, and inositol/Mg/Vit-D micronutrient watch.

- ♦ Cycle-phase tracking (4 phases)
- ♦ Carb-quality scoring
- ♦ Hormonal-friendly meal filter
- ♦ Micronutrient watch (inositol, Mg, D)
- ♦ Mood + energy log

Premium

Day 1 · Premium only

LEAN & DIRTY BULKS

Bulking / Muscle Gain

Built for athletes and lifters. Adaptive calorie surplus based on weight trend, protein-per-kg targets, and surplus-aggressiveness setting (lean / standard / aggressive).

- ♦ Adaptive surplus algorithm
- ♦ Protein/kg target enforcement
- ♦ Surplus aggressiveness setting
- ♦ Training-day vs rest-day calories
- ♦ Body comp trend

Premium

Day 1 · Premium only

THE CLASSIC GOAL

Weight Management

Adaptive deficit based on real weight trend (not the scale's daily noise). Plateau detection and gentle re-calibration without punitive nudges.

- ♦ Adaptive deficit (based on trend)
- ♦ Plateau detection
- ♦ Re-feed day suggestions
- ♦ Maintenance switch when goal hit

Premium

Day 1 · Premium only

Total Health Hub v1.0

Daily biofeedback that contextualizes the food log.

DAILY CHECK-IN

Biofeedback Tracker

A 30-second daily check-in: sleep quality, stress, energy, mood, digestion. Cross-referenced with food log to surface patterns ("low energy days correlate with low protein breakfasts").

- ◆ 5 dimensions, 30 seconds
- ◆ Cross-correlation with macros
- ◆ Pattern surfacing in weekly report

Free Trial → Premium

Q2 2026

ALWAYS FREE

Water Tracker

Goal calculated from body weight + activity + climate. Quick-add buttons for cups, bottles, and custom volumes. Widget on home screen.

- ◆ Smart goal calculation
- ◆ One-tap quick add
- ◆ Home-screen widget
- ◆ Reminder schedule

Free forever

Day 1 · iOS + Android

NATIVE SYNC

Health Connect 2-Way

First-class two-way sync with Android Health Connect (and Apple Health on iOS). Pulls weight, activity, sleep — pushes calories, water, macros — keeps your ecosystem coherent.

- ◆ Two-way sync (read + write)
- ◆ Health Connect (Android) native
- ◆ Apple Health (iOS) native
- ◆ Granular permission control

Free forever

Day 1 · iOS + Android

MODULE 05

| Privacy & Access

Try first, decide later. Always opt-in, never paywalled at the door.

TRY WITHOUT COMMITTING

Anonymous Auth

Open the app, tap "Try anonymously," and you're in. Use full Free + Trial features without an email or password. Convert to a real account anytime — your data follows you.

- ◆ No email at install
- ◆ No payment for trial
- ◆ Migrate to account anytime
- ◆ Local-first data storage

Free forever

Day 1 · iOS + Android

SIGNATURE

FRictionLESS

7-Day Free Trial

All Premium features unlocked for 7 days. **No credit card required.** Day 7, the app gracefully reverts to Free unless you upgrade. No dark patterns.

- ◆ Full Premium for 7 days
- ◆ No payment info required
- ◆ Soft graceful downgrade
- ◆ One reminder, not five

Free Trial

Day 1 · iOS + Android

PRIVACY-FIRST

Data Control

Export your full history as JSON or CSV anytime. Delete your account and all data with one tap. GDPR + CCPA compliant.

- ◆ Export to JSON / CSV
- ◆ One-tap account deletion
- ◆ GDPR + CCPA compliant
- ◆ No data sold, ever

Free forever

Day 1 · iOS + Android

MODULE 06

| Social & Viral Share

Built-in growth loops, designed for TikTok and Reels.

VIRAL-READY

Daily Win Cards

When you hit your protein, water, or calorie goal — KkaloAI generates a beautiful share card. One tap to TikTok, Instagram, or X with #KkaloAI.

- ◆ Auto-generated when goal is hit
- ◆ Branded but tasteful design
- ◆ One-tap share to 4 platforms

Free forever

Day 1 · iOS + Android

BODY COMP VISUALIZATION

3D Scan Export

Monthly 3D body scan rendered as a rotating GIF or video — perfect for TikTok progress posts. Privacy: rendered locally, never uploaded.

- ◆ Monthly 3D body scan
- ◆ GIF + MP4 export
- ◆ Local rendering only
- ◆ Compare to past scans

Premium

Q3 2026

SQUAD ACCOUNTABILITY

Friend Pods

Invite up to 5 friends to a private pod. Share weekly summaries (you choose what), cheer each other's wins. No public leaderboards, no shame.

- ◆ Up to 5 friends per pod
- ◆ Granular share controls
- ◆ Weekly digest only (no spam)

Free forever

Q3 2026

Three tiers. Zero surprises.

- ✓ Support response < 24h

Medical disclaimer. KkaloAI is a tracking and information tool, not a medical device. It does not diagnose, treat, or provide medical advice. Specialty modes (GLP-1, PCOS, Bulking, Weight Management) are designed to help users organize self-tracking around their personal health context — they do not replace consultation with a qualified healthcare professional.

STOP GUESSING. START KNOWING.
